COMPANY PROFILE

ABOUT US

Established in **2014, Standard Awnings and Canopy** specializes in the design, engineering, manufacturing and installation of modular tensile structures, awnings, canopies and technical fabric structures.

We create durable, functional and aesthetically designed covering solutions using high-quality **PVC-coated technical fabrics** with **PVDF protection**, engineered for strength, weather resistance, fire-retardant performance and long-term durability.

Our solutions serve **commercial, industrial, institutional, hospitality, automotive, sports and event** applications, with structures designed to meet individual project requirements.

COMMERCIAL | INDUSTRIAL | INSTITUTIONAL | HOSPITALITY | AUTOMOTIVE | SPORTS | EVENT

OUR EXPERTISE

DESIGN & ENGINEERING
Advanced design software and experienced engineering teams enable accurate planning, structural detailing and customized solutions.

STEEL FABRICATION
Precision-fabricated steel structures designed for strength, stability and long-term performance.

TECHNICAL FABRICATION
High-quality technical fabrics are professionally cut, fabricated and finished for reliable performance and appearance.

INSTALLATION
Professional site installation with attention to structural safety, alignment, finishing and project timelines.

QUALITY
Premium Materials

PRECISION
Accurate Execution

LASTING SOLUTIONS
Built for the Long Term

AWNINGS & CANOPY

OUR PRODUCT RANGE
MODULAR TENSILE STRUCTURES

Versatile structural systems designed for permanent or temporary applications.

APPLICATIONS:

Parking Areas

Walkways

Food Courts

Sports Facilities

Event Spaces

Industrial Areas

Storage Areas

TENSILE CANOPIES

Architecturally appealing canopy solutions combining protection, functionality and contemporary design.

SUITABLE FOR

- ENTRANCES
- PARKING
- COURTYARDS
- OUTDOOR SEATING
- COMMERCIAL SPACES
- PUBLIC AREAS

CUSTOM DESIGN
Tailored To Your Needs

Standard
AWNINGS & CANOPY

AWNINGS

Custom-designed awnings providing effective protection from sun, rain and weather conditions while enhancing the appearance of buildings and outdoor spaces.

APPLICATIONS:

Residential

Commercial

Hospitality

Restaurants

Retail

Institutional Buildings

Durable
Long lasting performance

Weather Resistant
Reliable in all seasons

Fire Retardant
Enhanced safety

Custom Design
Tailored to your needs

Standard
AWNINGS & CANOPY

CAR PARKING STRUCTURES

Durable and efficient covered parking solutions designed for residential, commercial, industrial, automotive and institutional premises.

FEATURES:

- Weather Protection
- Modular Design
- Custom Sizes
- Efficient Space Utilization
- Durable Construction

WALKWAY & ENTRANCE CANOPIES

Functional covered walkways and entrance structures designed to provide comfortable movement and weather protection.

APPLICATIONS:

Hotels

Hospitals

Offices

Schools

Airports

Railway Stations

Commercial Buildings

Standard
AWNINGS & CANOPY

INDUSTRIAL & STORAGE STRUCTURES

Large-span and modular structures designed for industrial requirements temporary storage material protection and covered working areas.

APPLICATIONS:

- Factories
- Warehouses
- Manufacturing Units
- Logistics Areas
- Temporary Storage

APPLICATIONS

Our structures are suitable for a wide range of environments:

Commercial & Retail

Industrial & Manufacturing

Automotive & Showrooms

Hotels & Hospitality

Restaurants & Food Courts

Sports & Recreation

Institutional Projects

Airports & Railway Stations

Parking & Transportation

Events & Temporary Structures

Terraces & Outdoor Areas

Gardens & Landscape Spaces

MATERIAL & TECHNOLOGY

TECHNICAL FABRICS

We work with recognized technical fabric manufacturers and suppliers, including:

Serge Ferrari® | MTEX® | SIOEN® | MEHLER TEXTILES

We also work with trusted Indian manufacturers including:

SRF | CSC

Our fabric selection is based on the application, structural requirements, environmental conditions, durability, and project specifications.

Durable | Weather Resistant | UV Resistant | Fire-Retardant

KEY MATERIAL BENEFITS

High Strength

Designed to withstand demanding applications.

Weather Resistance

Suitable for outdoor environments and varying weather conditions.

PVDF Protection

Provides enhanced surface protection and durability.

Fire-Retardant Options

Technical fabrics can be selected according to applicable project requirements.

Long Service Life

Quality materials and proper engineering contribute to reliable long-term performance.

Better Materials. Stronger Structures.

ADDITIONAL PRODUCTS

FABRIC PERGOLA

Modern outdoor shading structures using high-quality technical fabric. Designed to provide comfortable shade and weather protection for outdoor spaces.

APPLICATIONS:

- Terraces
- Gardens
- Outdoor Seating
- Restaurants
- Hospitality Areas
- Poolside Areas

Standard®
AWNINGS & CANOPY

FABRIC PERGOLA

APPLICATIONS:

- Terraces
- Restaurants
- Gardens
- Resorts

Standard
AWNINGS & CANOPY

ALUMINIUM LOUVERED PERGOLA

Elegant aluminium pergola systems with adjustable louvers. Designed for flexible shade control and comfortable outdoor spaces.

APPLICATIONS:

- Terraces
- Gardens
- Restaurants
- Cafés
- Resorts
- Residential Spaces
- Commercial Areas

Standard®

AWNINGS & CANOPY

POLYCARBONATE DOME

Strong and lightweight dome structures using durable polycarbonate panels. Designed to provide natural light and reliable weather protection.

APPLICATIONS:

- Garden
- Terrace
- Resorts
- Restaurants

Standard®
AWNINGS & CANOPY

POLYCARBONATE ROOF

Durable and high-performance polycarbonate roofs offer excellent light transmission, UV protection and weather resistance. Ideal for a wide range of residential, commercial and industrial applications.

APPLICATIONS:

- Residential Buildings
- Commercial Spaces
- Industrial Facilities
- Parking Areas
- Outdoor Seating
- Gardens & Landscape Spaces

Standard
AWNINGS & CANOPY

WHY STANDARD AWNINGS AND CANOPY?

Your trusted partner for reliable, innovative and high-quality tensile structure solutions.

01

EXPERIENCE

Established in 2014, with experience across diverse structural applications.

02

CUSTOM ENGINEERING

Solutions designed according to project-specific requirements.

03

QUALITY MATERIALS

Technical fabrics and structural materials selected for performance and durability.

04

COMPLETE SOLUTION

From design and engineering to fabrication and installation.

05

MODULAR FLEXIBILITY

Structures can be designed for expansion, relocation, installation, or dismantling where required.

06

PROFESSIONAL EXECUTION

Focused on quality, precision, safety, and timely project delivery.

Together We Build Better Spaces

COMMERCIAL | INDUSTRIAL | AUTOMOTIVE | HOSPITALITY | SPORTS | INSTITUTIONAL | EVENTS

Standard
AWNINGS & CANOPY

PROJECT EXPERIENCE

We have successfully executed projects for reputed organizations and landmark locations, including:

RELIANCE	INTERNATIONAL AIRPORTS	RAILWAY STATIONS	TAJ LANDS END	GODREJ	WORLD TRADE CENTER	MUMBAI RACECOURSE

Selected project references are presented for portfolio purposes.

OUR APPROACH

01 UNDERSTAND

We study the project's functional, architectural, structural, and environmental requirements.

02 DESIGN

Our engineering team develops an appropriate structural and fabric solution.

03 MANUFACTURE

Steel components and technical fabrics are manufactured using controlled fabrication processes.

04 INSTALL

Experienced teams carry out site installation and finishing.

05 DELIVER

We focus on delivering a reliable, functional, and aesthetically finished structure.

Standard
AWNINGS & CANOPY

QUALITY & COMMITMENT

At Standard Awnings and Canopy, we believe that every structure should combine engineering, functionality durability and design.

Our commitment is to provide customers with reliable efficient and cost-effective covering solutions while maintaining consistent attention to material quality fabrication, workmanship and project requirements.
